• Project Completed: Hosted .NET applications on Azure Application Gateway. • Gained hands-on experience in configuring and managing Azure resources ,focused on bug fixing and ensuring proper containerization. • Skills Acquired: Development and operations. • Tools Proficient In: Docker and Kubernetes.	

PROJECTS

Global Trends Analysis (Demo)	June 2024
---	-----------

- Conducted comprehensive EDA on the Gapminder dataset to uncover relationships between demographic changes, economic development, and health advancements across multiple countries.
- Analyzed socio-economic and health indicators, revealing key insights such as the positive correlation between GDP per capita and life expectancy, and significant disparities across continents.
- Visualized data trends and patterns using pivot tables, box plots, and scatter plots, highlighting the impact of economic prosperity and political stability on health and economic metrics.

Capstone Project: Analytical CRM Development for a Bank ([Demo](#))

February 2024

- Conducted thorough analysis of customer datasets using SQL, Excel, and Power BI, providing actionable insights for sales enhancement.
- Demonstrated expertise in SQL concepts (subqueries, joins, etc.) to optimize data retrieval and inform decision-making.
- Assessed customer data to reduce churn, improve service delivery, and formulated recommendations for business improvement.

Anomaly Detection in Credit Card Transactions using Power BI ([Demo](#))

December 2023

- Created Power BI dashboard for detecting fraudulent credit card transactions, ensuring transaction security.
- Utilized Power BI's features for data visualization and analytics to provide insights into transaction patterns and identify anomalies.
- Deployed interactive dashboard for stakeholders to enhance decision-making processes.

Marketing campaign performance ([Demo](#))

November 2023

- Identified top-performing marketing channels through CTR, conversion rate, and ROI analysis, optimizing resource allocation.
- Analyzed customer demographics and campaign performance, uncovering patterns to inform targeted strategies.
- Enabled interactive exploration of campaign performance, facilitating data-driven decisions across channels, years, and demographics.

CERTIFICATIONS

Professional Certificate Course in Data Science Newton School

September 2023

- Skills Acquired: Data analysis.
- Tools Proficient In: MS Excel, Power BI, MySQL

Big Data Engineering with Hadoop and Spark Indian Institute of Technology Roorkee

July 2021

- Completed a 60-hour self-paced certification program in Big Data Engineering with Hadoop and Spark.
- Conducted by the Electronics ICT Academy, IIT Roorkee.
- In association with CloudxLab.

Python For Everybody University of Michigan ([Link](#))

June 2020

- Using Python to Access Web Data
- Capstone: Retrieving, Processing, and Visualizing Data with Python
- Using Databases with Python
- Python Data Structures

SKILLS

Computer Languages: SQL, Python, CSS, HTML

Data Tools: Power BI

Software Packages: MySQL, Excel

Soft Skills: Communication Skills, Teamwork, Leadership

EXTRA-CURRICULAR ACTIVITIES

Leadership in College Fest Management (2023)

Role: Lead Coordinator

Responsibilities:

- Led a team of 20 students to organize the Annual College Fest.
- Planned and coordinated various cultural, technical, and sports events.
