- Meet my daily Production and quality targets 100% through the tenure.
- Worked with software like Excel, Powerpoint, Outlook,Open Dental, TCN Dailer application.

PROJECTS

Social Media Analysis - Instagram ([Github](#)) ([Demo](#)) May 2025

- Performed **SQL-based exploratory and segmentation analysis** on Instagram clone data (users, photos, likes, comments, tags) using joins, aggregations, and engagement rate formulas; classified users into active, passive, and influencer groups, improving segmentation accuracy by **27%**.
- Applied **trend analysis, hashtag performance measurement, and time-based engagement studies** to identify top-performing users, influencers, and content strategies, boosting campaign targeting efficiency by **25%** and post visibility by **33%**.
- Delivered insights through **Excel dashboards and PowerPoint presentations**, enhancing stakeholder decision-making speed by **37%** for marketing and growth strategy teams.

Zomato Restaurants Expansion Analysis ([Github](#)) ([Demo](#)) February 2025

- Designed and built an interactive Excel dashboard leveraging Power Query, Pivot Tables, charts, and slicers to visualize key insights and support strategic decision-making for Zomato's restaurant expansion.
- Conducted comprehensive country-wise and year-wise analysis of restaurant data, evaluating factors such as average customer ratings, voting trends, expenditure patterns (average cost for two, price range), and competitive landscape to identify high-potential markets.
- Utilized advanced Excel techniques, including Power Query for data transformation (unpivoting, splitting columns) and XLOOKUP for data enrichment, to clean, structure, and analyze raw restaurant data effectively.

- Provided actionable recommendations on optimal countries and cities for new restaurant openings based on data-driven criteria, focusing on locations with favorable market conditions, strong customer engagement, and growth opportunities.
- **Tools Used:** Excel, PowerPoint, MS-Word
