PROFESSIONAL SUMMARY

I aim to solve problems in an effective/creative manner in a challenging position to grow professionally as well as personally.

EDUCATION

Bachelor of Engineering (Computer Science) St. John College of Engineering and Management	2018 - 2022 Grade: 9.5/10.0
Intermediate (Class XII) Chinmaya Vidyalaya	2017 - 2018 Grade: 84.8%
Matriculation (Class X) St. Mary's High School	2015 - 2016 Grade: 93.0%

EXPERIENCE

Senior Software Engineer June 2022 - Present
Vistaar Systems Pvt. Lt. *Mumbai*

Role - Backend Developer

Skills - Coding, Testing, Debugging errors, feature development and enhancement, etc.

Languages - Javascript, Postgresql, Oracle, Shell Script

- **Data Processing**

ETL Development: Created ETL scripts using SQL (Oracle, PostgreSQL) and shell scripting to extract, transform, and load data for demo projects and production systems, enabling efficient data pipelines and analysis workflows.

- **Data Generation**

Verification: Performed data cookup and number verification using spreadsheets and SQL queries, ensuring high-quality datasets for testing, analysis, and production support scenarios.

- **Analytical Support**

Reporting: Conducted data analysis, trend identification, and performance metrics tracking through JavaScript backend logic and SQL, supporting business intelligence and decision-making processes.

- **Quality Assurance**

Documentation: Developed unit tests, comprehensive documentation, and enhancement code for data-driven applications, maintaining data integrity and facilitating seamless production deployments.

PROJECTS

IT Ticket Analysis ([Github](#)) September 2025

Analyzed IT support ticket data to evaluate agent performance, resolution efficiency, and employee satisfaction.

Key aspects of the analysis include:

- Analyzed ticket volumes over time, resolution speeds, and performance targets met for different severity and priority levels.
- Agent-wise performance evaluation to identify high and low performers and assess training needs.
- Category-wise and age/seniority-wise insights to uncover process bottlenecks and improvement areas.
- Data-driven recommendations for staffing, process optimization, and training program enhancement.

Skills : Spreadsheets

CERTIFICATIONS

Spreadsheets Newton School July 2025

Completed structured training in spreadsheets (Excel/Google Sheets) covering data cleaning, analysis, formulas/functions, and dashboarding as part of the Data Science program at Newton School.

Learn Linux in 5 Days and Level Up Your Career Udemy ([Link](#)) November 2022

Learning Shell Script

JavaScript: The Advanced Concepts (2023 Update) Udemy ([Link](#)) November 2022

Learning Advanced JavaScript concepts

JavaScript - The Complete Guide 2023 (Beginner + Advanced) Udemy ([Link](#)) November 2022

Learning advanced JS concepts

The Complete Oracle SQL Bootcamp Udemy ([Link](#)) July 2022

Learning Oracle SQL

SKILLS

Computer Languages: JavaScript, SQL, SQL, Python

Software Packages: UNIX, Excel, MySQL, Excel

Soft Skills: Verbal/nonverbal communication, Leadership, Time management, Decision-making, Creativity, Teamwork, Critical Thinking, Communication Skills

Others: Git and Github, Unit Testing, Microsoft Office, Spreadsheet, Product Management, Problem-Solving, Analytics, Documentation Writing, Bash Scripting, API testing, Elasticsearch

EXTRA-CURRICULAR ACTIVITIES

Sports

Karate - Black Belt, Gold in national level tournaments, volunteering in tournaments

Hobbies

Gym, MMA, Bike riding, playing Garba, travelling

Volunteering

Student Volunteer at National Service Scheme (NSS) from Sep'19 - Sep'21
