PROFESSIONAL SUMMARY

I am a detail-oriented Data Analyst with strong skills in SQL, Excel, and data visualization, passionate about turning raw data into meaningful insights. With experience in cleaning, analyzing, and presenting data, I focus on helping teams make informed decisions. I value continuous learning, collaboration, and delivering accurate, impactful results.

EDUCATION

Bachelor of Technology (Computer Science) Siddharth Institute of Engineering and Technology	2014 - 2018 Grade: 71.0%
Intermediate (Class XII) SRI CHAITHANYA JUNIOR COLLEGE	2012 - 2014 Grade: 96.0%
Matriculation (Class X) SRI SARVAGNA HIGH SCHOOL	2011 - 2012 Grade: 9.5/10.0

EXPERIENCE

Junior iOS Developer June 2022 - July 2024
Join Venture Technologies Pvt.Ltd *Remote*

- **IGP:** A hand-curated gifting platform offering a wide range of categories for easy selection. The app enables users to celebrate special occasions and festivals by ordering flowers, cakes, customized, and unique gifts. Its vision is to make gifting an informed, hassle-free, and delightful experience.
- **Interflora India:** A premium online store specializing in handcrafted, luxury floral arrangements. Recognized as one of the leading and most trusted online gifting portals across global markets.

iOS App Developer July 2021 - May 2022
Volve Solutions Pvt.Ltd *Remote*

- Developed various domain-related mobile applications such as social media, utilities, etc.
- Duhshowoffz is the social media app for showing off your things! Whatever the user would like to show off, such as a car, shoes, or anything according to user interest, this is the app for the end-user.

iOS Developer September 2020 - June 2021
VAMOSYS Pvt.Ltd *Remote*

- Joined as a junior iOS developer and developed fleet-related mobile applications.
- Fleet OS is a solution for addressing driver shortages, providing seamless planning and execution. It enables fleet operations without requiring manual intervention, and includes monitoring of fuel level & temperature, as well as location tracking using GPS.

Jr. Software Engineer-iOS June 2019 - August 2020
ThoughtGreen Technologies Private Limited *Hyderabad*

- Joined as a fresher and worked closely with the development team to build and enhance mobile applications.
- Worked under the guidance of experienced developers, contributing to the development and improvement of multiple applications.
- Involved in teamwork for designing, coding, and debugging mobile app features.

PROJECTS

Columbia Asia Healthcare Data Analysis ([Github](#)) ([Demo](#)) July 2025
Developed a comprehensive dashboard using **SQL** and **Power BI** to analyze patient flow, satisfaction, doctor performance, and departmental revenue.

- Cleaned and transformed data using Power Query and DAX; handled missing values and formatting issues.
- Designed tab-level views for doctors, patients, and admin to support staffing, care quality, and strategic planning.

IPL Performance Analysis Using SQL ([Github](#)) ([Demo](#)) June 2025

- Analyzed IPL data across 10+ relational tables to extract insights on teams, players, and venues.
- Wrote advanced SQL queries with JOINS, aggregates, and window functions.
- Evaluated top batsmen and all-rounders using strike rate, average, and economy metrics.

- Provided actionable recommendations for team selection and auction strategy.
- Created project visuals and reports using Excel, Power BI, PowerPoint, and MySQL Workbench.

Zomato Restaurants Expansion ([Github](#)) ([Demo](#))

March 2025

- **Market Insights:** Identified regions with high potential for restaurant expansion based on competition and demand.
- **Customer Behavior:** Analyzed the impact of pricing, online delivery, and table booking on restaurant success using Excel.
- **Competitor Analysis:** Assessed market trends, pricing strategies, and customer feedback for better positioning.
- **Data-Driven Expansion:** Used financial trends and consumer preferences to recommend strategic growth opportunities.

CERTIFICATIONS

Professional Certificate in Data Science Newton School

January 2025

- Currently pursuing a comprehensive Newton's Data Science certification program encompassing data analysis, machine learning, statistical modeling, and data visualization.
- Gained proficiency in SQL, Power BI, spreadsheet applications, and statistical methodologies to effectively harness the power of data for informed decision-making.
- Acquiring practical skills to drive data-driven decisions, empowering future endeavours in the dynamic and rewarding realm of data science.

SKILLS

Computer Languages: SQL, Python, Python, Swift, SQL

Data Tools: Power BI, Power BI

Software Packages: Excel, Excel, MySQL

Others: Postman, Git and Github
