PROFESSIONAL SUMMARY

Data-focused professional currently working as a Database Administrator at Wipro Technologies with experience in managing databases, executing SQL queries, maintaining data integrity, and supporting system performance. Previously worked as an Associate Software Engineer at Accenture, where I gained hands-on experience in Excel-based reporting, Power BI dashboards, and SQL-driven data processing. Skilled in data cleaning, analysis, and visualization to support business insights and decision-making. Known for strong analytical thinking, process-oriented problem solving, and the ability to learn quickly in fast-paced environments. Seeking to expand my expertise in Data Analytics and contribute to data-driven decision support roles.

EDUCATION

Bachelor of Technology (Computer Science) Techno India NJR institute of technology	2019 - 2023 Grade: 84.0%
Intermediate (Class XII) Step by step sr sec school	2018 - 2019 Grade: 58.0%
Matriculation (Class X) Sinhgad public school	2016 - 2017 Grade: 8.8/10.0

EXPERIENCE

Administrator (Database) November 2024 - Present
Wipro Technologies LTD. *pune*

- Managed and maintained SQL databases including user access, performance optimization, routine backups, and data integrity monitoring to ensure system stability and reliability.
- Executed SQL queries to retrieve, update, and validate data, supporting reporting requirements, audit checks, and operational workflows.
- Collaborated with cross-functional teams to troubleshoot database-related issues, streamline data processes, and improve system efficiency

Packaged App development Associate February 2024 - August 2024
Accenture *pune*

- Performed data cleaning, transformation, and reporting using **Excel** to support business use cases and insights.
- Developed and maintained **Power BI dashboards** to visualize KPIs and business metrics, improving accessibility and decision-making for stakeholders.
- Wrote and optimized **SQL queries** for data extraction, validation, and analysis, contributing to accurate documentation and workflow efficiency.

PROJECTS

Astrosage Analysis project September 2025

- Utilized complex formulas, pivot tables, and automation techniques to generate actionable insights across multiple customer interaction aspects.

- Conducted trend and pattern analysis to identify key drivers of user engagement and service profitability.
- Translated analytical findings into business recommendations that supported decision-making for optimizing customer communication workflows.

Coca cola Hellenic Bottling company November 2024

- Managed SQL databases supporting large-scale business operations, ensuring data accuracy, performance, and system reliability.
- Executed SQL queries for data extraction, validation, and reporting, improving processing efficiency.
- Used ServiceNow for incident and change management while maintaining high SLA compliance.
- Performed routine database maintenance including backups, access management, and performance monitoring.

Student management using C++ and sql September 2023

- Implemented core features such as student registration, attendance tracking, marks management, and report.
- Built robust database structures and optimized SQL queries to ensure efficient data storage, retrieval, and integrity.
- Applied object-oriented programming principles in C++ to create modular, reusable, and maintainable code components.

CERTIFICATIONS

Data analysis with excel newton school May 2025

- Utilized complex formulas, pivot tables, and automation techniques to generate actionable insights across multiple customer interaction aspects.

- Conducted trend and pattern analysis to identify key drivers of user engagement and service profitability.
- Translated analytical findings into business recommendations that supported decision-making for optimizing customer communication workflows.

SKILLS

Computer Language: SQL

Soft Skill: Communication Skills, Creativity, Critical Thinking, Decision-making, Delegating tasks, Interpersonal communication, Leadership, Presentation Skills, Public speaking, Research, Team Building, Teamwork, Time management, Verbal/nonverbal communication

Databases & Data Tools: Excel, Power BI

Domain & Business Skills: Analytics, ServiceNow, Social Media

Frameworks & Libraries: Microsoft Office
